**bizhub 282/362 is an efficient infoline designed copier to react to diverse consumers:
Serves as an all-rounder communication device designed with mid ranged offices in mind.**

bizhub 282/362 blends into an office environment as a new monochrome copier in bizhub series targeted at the mid ranged users. This new compact and stylish copier aims at introducing the users to operate as efficient workgroups in accounting, logistics and personnel departments.

The device is able to deliver a copy and print speed of 28 and 36 page per minute. Hard disk drive memory encryption and password lock can be enabled to prevent tampering of HDD contents. On top of that, the function HDD data erasure safeguards all information during disposal of the HDD. There is one unique user box approach which can store up to 1,000 user boxes. As a result, instantaneous retrieval of stored documents can be facilitated with ease. Users can choose to reprint and resend data with ease just by using the HDD memory.

bizhub 282/362 emphasizes on data sharing and communication which is demonstrated in multiple methods. Under the scanning function, users can choose to scan to email, FTP, SMB, Box, Internet Fax and TWAIN scan options. The scan to FTP option can transmit data to an assigned directory to share enormous amounts of data between designated users. This saves and cuts down communication error and time via phone or email. The scan to SMB option is another great way to save and distribute documents especially in a peer to peer network environment.

There are also various fax options which links to external office network through Super G3 Fax, Internet Fax, IP address Fax and PC Fax. The Super G3 fax option enables users to send and receive pages up to A3 size which has the international standard that guarantees high speed transmission. Since PC Fax can serve as another fax option, it helps users to cut down on paper consumption by direct transmission via PC.

Using an extra fine Simitri polymerized toner, bizhub 282/362 can produce an excellent image quality which results in sharper text lines and finer graduations. This eco friendly toner is extremely helpful in reducing paper curling and enables faster output with a lower fixing temperature. The user friendly device is further enhanced with universal design so that toner is being replaced effortlessly. Front tray access makes the replacement of toner simple and convenient for the users.

Thus with the combination of powerful network features, dependable security and outstanding ease of use creates and enables this machine to seek result in proving another tremendous record performed by monochrome infoline designed copiers.

About Konica Minolta Business Solutions (S) Pte Ltd

Konica Minolta Business Solutions is in charge of the sales and marketing functions of bizhub line series multifunctional copiers and printers. Having established in Singapore for more than 30 years, Konica Minolta is a key supplier of full colour and black-&-white digital copier and printer solutions which provide prompt on-field support by a team of professionally-trained Service Technicians.

In an attempt to further boost the team spirit of the corporation, we have introduced a new Konica Minolta slogan called simply BOLD. Konica Minolta wants to take up the challenge to make innovative ideas happen. The first step is to come up with ways which result in discarding outdated thinking and ineffective behavior. Next, the employees must inspire each other by sharing concrete ideas on how to replace outdated habits with bold new innovations. Both steps constitute the idea of simply BOLD in order to realize the full potential of Konica Minolta. This campaign will ensure that the right direction is taken towards a bold move in the future and a platform to communicate our ideas.
