bizhub PRO C6501 delivers a system that can effortlessly integrate into any Hybrid workflow of yours

bizhub PRO C6501 represents a significant development in the Digital Production arena and extends Konica Minolta's highly successful, capable bizhub PRO range. The production system offers a robust design assuring reliability with no compromise in quality, guaranteeing a rapid turnaround for your short-runs. It gives all-round capability needed for colour production printing at its best.

The 3,900pph in both colour and b/w press offers an impressive suite of own inline finishing options. This is one production system that accommodates all customers' requirements which includes folding, saddle-stitching and trimming, stapling and hole-punching, perfect binding as well as the GBC punch options. These high performance finishing functions can definitely produce high-quality deliverables, whether for in-house, production floor or the print service providers.

Besides the unparalleled finishing choices, the production system impresses further with its sophisticated paper processing capabilities providing up to 7,500 pages** input and up to 8,400 pages output capacity. It processes wide range of substrates, including media weights of up to 300gsm*.

Contributing to its excellent print quality is Konica Minolta trademark S.E.A.D core image processing technology. It combines an array of technical innovations to guarantee truly exceptional color reproduction at top speed. The image quality produced exceeds all expectations and further enhanced through newly engineered Simitri HD polymerized toner. This high definition toner ensures an impressive reproduction of image quality which also has a higher resistance to fading, thanks to the cleverly designed fusing technology.

You can rest assure high printing efficiency and professional color management to be achievable when the C6501 is equipped with the latest Fiery technology. This pro-level print controller*** seamlessly handles the rigors of a production print environment, perfect for digital print professionals who demands for graphic arts and variable printing requirements. Not forgetting the Commercial Printers, the C6501 easily fits into your environment with the IC-304 Plus, CREO Color Server. With this system, seamless integration can be realized to providing you the real hybrid workflow, optimizing management of digital and offset print runs.

Combining impressive colour and superb quality output with durability, reliability and a streamlined, integrated design, this production system will be able to device an economically viable solution which is customised for

printing environments. It will serve as the best choice for central reprographic departments, print for pay environments and commercial printers who require high efficiency, productivity and quality.

* Optional paper trays are required

** Optional multi-bypass tray is required

*** Optional

About Konica Minolta Business Solutions (S) Pte Ltd

Konica Minolta Business Solutions is in charge of the sales and marketing functions of bizhub line series multifunctional copiers and printers. Having established in Singapore for more than 30 years, Konica Minolta is a key supplier of full colour and black-&-white digital copier and printer solutions which provide prompt on-field support by a team of professionally-trained Service Technicians.

In an attempt to further boost the team spirit of the corporation, we have introduced a new Konica Minolta slogan called simply BOLD. Konica Minolta wants to take up the challenge to make innovative ideas happen. The first step is to come up with ways which result in discarding outdated thinking and ineffective behavior. Next, the employees must inspire each other by sharing concrete ideas on how to replace outdated habits with bold new innovations. Both steps constitute the idea of simply BOLD in order to realize the full potential of Konica Minolta. This campaign will ensure that the right direction is taken towards a bold move in the future and a platform to communicate our ideas.
